

ROYAL PURPLE[®]

SYNTHETIC OIL

2-Cycle TCW III Racing

2-Cycle Gasoline Engine Racing Oil

Beyond Synthetic™

Royal Purple[®] 2-Cycle TCW III Racing is a special purpose racing oil recommended for use in pre-mix gasoline two-cycle engines.

Royal Purple[®] 2-Cycle TCW III Racing is a high performance engine oil that improves performance and reduces wear in high performance two-cycle gasoline engines. Royal Purple[®] 2-Cycle TCW III Racing has a synthetic solvency that keeps spark plugs and exhaust ports clean for maximum engine efficiency. This engine cleanliness, combined with 2-Cycle TCW III Racing's low coefficient of friction promotes increased horsepower and engine speed.

Mix Ratio	24:1	32:1	40:1	50:1	80:1	100:1
Oz. Oil/Gal. Gas	5.3	4	3.2	2.6	1.6	1.3

Exclusive Performance Advantages:

- Greater Wear Protection
- Clean, Efficient Engines
- Outstanding Rust / Corrosion Protection
- Increased Performance
- Ashless to Minimize Exhaust Deposits
